Reasons for Allowance

1. The following is an examiner's statement of reasons for allowance: The prior art of record taken alone and in combination does not disclose "a method for generating an echo signal in a time-of-flight ranging system, said method comprising applying an entropy filter to said echo signal, said entropy filter including determining whether information contained in said echo signal corresponds to a valid echo pulse or is substantially noise, distinguishing those of said echo pulses determined as comprising noise in said echo signal" as recited in claim 1 and as argued by applicant.

Furthermore, the prior art of record does not disclose "a level measurement device for measuring a distance to a material having a surface, said level measurement device comprising: a controller having a receiver and a transmitter said controller including a program component for generating an echo profile based on said signals, said controller including another program component for applying an entropy based filter to the echo profile" as recited in claims 13 and 19. These limitations are neither taught nor made obvious by the prior art of record.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jacques M. Saint-Surin whose telephone number is
